Objective

Motivated and eager-to-learn Data Analytics and Full Stack Software Development intern. I have a foundational understanding of data analysis principles, actively developing skills in SQL, Excel, and Python for data manipulation and visualization. Familiar with basic data visualization tools like Power BI/Tableau and enthusiastic about using data to uncover patterns and insights. Currently pursuing a degree in Management Information Systems, with hands-on academic experience in analyzing and interpreting data to support decision-making. A dynamic and innovative and detail-oriented problem-solver, committed to growing technical, Project and Financial Management skills and contributing value to a dynamic team environment and organization.

Experience

Genesis Studios | Data Analyst Intern   **2024-2024**

- ❖ Media & Entertainment Industry that specializes in TV/Film content production, Media solutions, Broadcast and Marketing.

Task & Project:

- **The Price is Right Nigeria**: (Production/Broadcast Engineer) – Project
- **Broadcasting and Production**
- **Graphics Design:** Adobe Premier pro, Adobe photoshop
- **Data Analysis for Customer Insights:**
- Merged Spreadsheets from various sources to create more compact and centralized platform
- Collaborated with cross-functional teams for data source and accuracy
- Data Cleaning to avoid redundant and duplicate customer information
- Drove business decisions and reduced operational costs

ICT Trainer   **Freelance**

- Instructing Learners in Computer System Architecture Modules
- Data(information) relational management system using SQL Database programming language.
- Manage **Saints Springs Nursery and Primary School** Website and Educational Management System (EMS).

Zoracom | (NETWORK OPERATIONS, SECURITY OPERATIONS,   **2025-2025**

 DATA SCIENCE AND FULL STACK DEVELOPMENT) TRAINEE)

- Built responsive UI components with **React.js** and **Tailwind CSS** (hero sections, stacked headings, background images, tech-stack row with dividers).
- Implemented client-side routing using **React Router DOM**; managed state with React hooks and props.
- Integrated REST APIs (fetch/axios), adding loading/empty/error states and input validation.
- Collaborated via **Git/GitHub** (branches, PRs, code reviews); assisted with **QA testing** of internal/NEMSA products and fixed UI bugs.
- Practiced accessible design (semantic HTML, keyboard focus, contrast) and basic theme handling with Tailwind utilities.

- Worked in the **Security Operations Center (SOC)**: monitored security events, triaged alerts, documented incidents, and escalated as needed.
- Participated in **ISMS** and safety meetings; facilitated a session on the **Importance of Communication** and contributed to compliance documentation.
- Gained field/network exposure to **FTTH** infrastructure—**OLT**, **FATs**, manhole connectivity—and documented observations for the team.

Education

Covenant University, BSc. Management Information System	**2022-2026**
University Of Lagos , High School Diploma	**2020-2021**
Apostolic Faith Secondary School, Anthony Village, Lagos: WASC O/L	**2020**
International General Certificate of Secondary Education (IGCSE O/L) :	**2019**

Skills & abilities

- Critical Thinking
- Problem solving
- Communication
- Data Visualization
- Data Analysis
- AWS AI & ML (Fundamentals of ML)

Certifications

- **Certification in Data Analysis** [stack: Excel, Power BI, Python]

- **Certification in Front End Web Development** [stack: HTML5, CSS3 ,JAVASCRIPT, Adobe XD (UI Design]

- **Graphic Master**: Design development plan and execution, 2-D art**,** Bitmap Graphics, Vector Graphics, Photoshop, Corel Draw and Paints, 3D Graphics, open-source 3D creation suite**,** Intro. To AutoCAD, Animation and Motion Graphics

- **Certification in Machine Learning and Deep Learning with hands-on experience in TensorFlow, Keras, Convolutional Neural Networks (CNNs), and Recurrent Neural Networks (RNNs)**

RESEARCH / PROJECT

- **Daisy Tech Limited:** Data analysis and Visualization Simulation (2022)
  Skills: Power BI Capstone Project
- **Covenant University:** Database Project
  Skills: Covenant Uber car online shopping: Front End design to integrate database with Back End Design
- **GIIT:**
  Skills: UI/UX Mobile Design for the landing page and sign page of a website using FIGMA

Extra Curricula Activities

- **Church Choir & Orchestral and Organist :**   **2020 - Till Date**
- **Chapel Prefect :Apostolic Faith Secondary School**   **2019 – 2020**
- **Music: Level 3&5 Trumpet Certificate (Muson Center Ikoyi, Lagos)**
